Fraud Waste & Abuse

You Can Help Prevent Health Care Fraud.

The National Health Care Anti-Fraud Association (NHCAA) estimates that about \$100 million is lost from health care fraud each day! You can help Clever Care to prevent, detect, and correct health care fraud by reporting any suspicious activity. When you report a situation that may be potential health care fraud, waste, and abuse, you're doing your part to help save money to make our health care system better.

What is Health Care Fraud, Waste and Abuse?

Fraud occurs when someone knowingly and willfully submits a false claim that results in inappropriate payments.

Examples: Billing for services not rendered, falsifying a patient's diagnosis to justify unnecessary procedures, or accepting kickbacks for patient referrals.

Waste is overuse of services or other practices that, directly or indirectly, results in unnecessary medical costs. This includes the misuse of resources which is not generally considered a criminally negligent action.

Examples: Ordering excessive diagnostic tests, overuse of office visits, or a pharmacy sending medications to members without confirming they still need them.

Abuse is an action that may result in unnecessary medical costs. When a person or entity unknowingly or purposely misrepresents fact to obtain payment, this is abuse.

Examples: Charging in excess for services or supplies, providing medically unnecessary services, or going to different doctors or emergency rooms to obtain pain medication.

Report Potential Fraud, Waste and Abuse (FWA)

Clever Care provides you various ways to report potential FWA issues. For more information on how to report, visit our website or contact Member Services.
